FIELD SERVICE // DISPATCH

# TECH OPS

## ONE APP RUNS THE WHOLE SHOP.

I'm a field tech. I built Tech Ops because I was sick of juggling a dozen apps to get one job done.

### WHAT'S IN THE BOX

01 **Tickets and dispatch.** Drag jobs onto the board, techs see them on their phone.

02 **Calendar and My Day.** Everyone sees today's work, sites and weather.

03 **Inventory.** Parts on every truck, shelf and warehouse. Order straight to them.

04 **Quotes and invoices.** Built right from the ticket.

05 **Client portal.** Your customers send requests and see their jobs.

06 **Chat and calls.** Your crew talks inside the job, not in a group text.

### 30 DAYS FREE

Your whole team. No card.

**$25** a seat / month

**$40** with Millie AI

**Clients are free.**

Phone, tablet or PC. English, Spanish and French, each person picks their own.
